7/28/66

Dear Sylvia,

Thanks for the note and the enclosed HO Chronicle. Wonder when I'll be able to get back to that book. No work on sequel that was 20% done month ago. Hope you'll be able to get the public-health paper it refers to when available. If these things cost you anything, please let me know.

If you have or know any one who has either the Long John or the Burke tapes I'd like very much to have a copy. Burke promised the sound to me, but no word of it.

Things are going well and keeping me even busier. Did I tell you serialization sold in Spain and inquiry for book rights from Italy?

Recently I've heard from your California friends. They all seem like wonderful people.

On tape: our machine is 5", speeds 1 7/8 and 3 3/4, but we can use anything.

Thanks a lot.

Sincerely,
